

## Who we are

METRICA S.A. was established in 2005 with the main activity the representation of high accuracy measuring systems in Greece. METRICA S.A. help customers to understand, plan & implement solutions for simple, complex or unique applications that are related to Surveying, Heavy Industry, Shipping and the Environmental sector. We aim to establish long term relationships based on trust, cooperation and sincerity.

### Mission

To provide organizations and industry professionals with innovative, high-end solutions / services, at European standards, that enhance their productivity, increase quality and speed and reduce their operating cost.

### Vision

To sustain leadership in the Greek market providing breakthrough high accuracy measurement technologies.

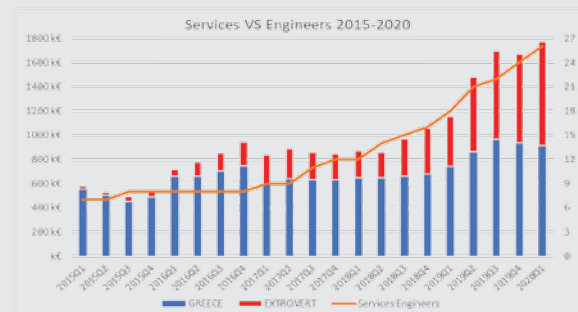

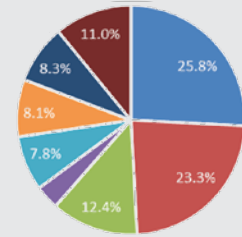

Combining advanced technology solutions, years of experience & innovative methodology, METRICA offers unparalleled, turn-key solutions to its customers.

- 2019 Turnover: 3.7 million €
- Staff: 40
- Facilities: 600 m<sup>2</sup>
- Assets: 1.6 million €

### MARKET SHARE / PROFESSION

- CONSTRUCTION COMPANIES
- SURVEYORS
- CIVIL ENGINEERS
- ARCHITECTS
- PUBLIC
- UNIVERSITIES
- INDUSTRY & MARINE
- DISTRIBUTORS

## Our Competencies

State of the art equipment

Team of experts in the field

Customized Solutions

Experienced & well-trained

Extensive customer list

Comprehensive Technical Support

# Solutions & Services

## Surveying equipment

Total Stations, GNSS systems, Software

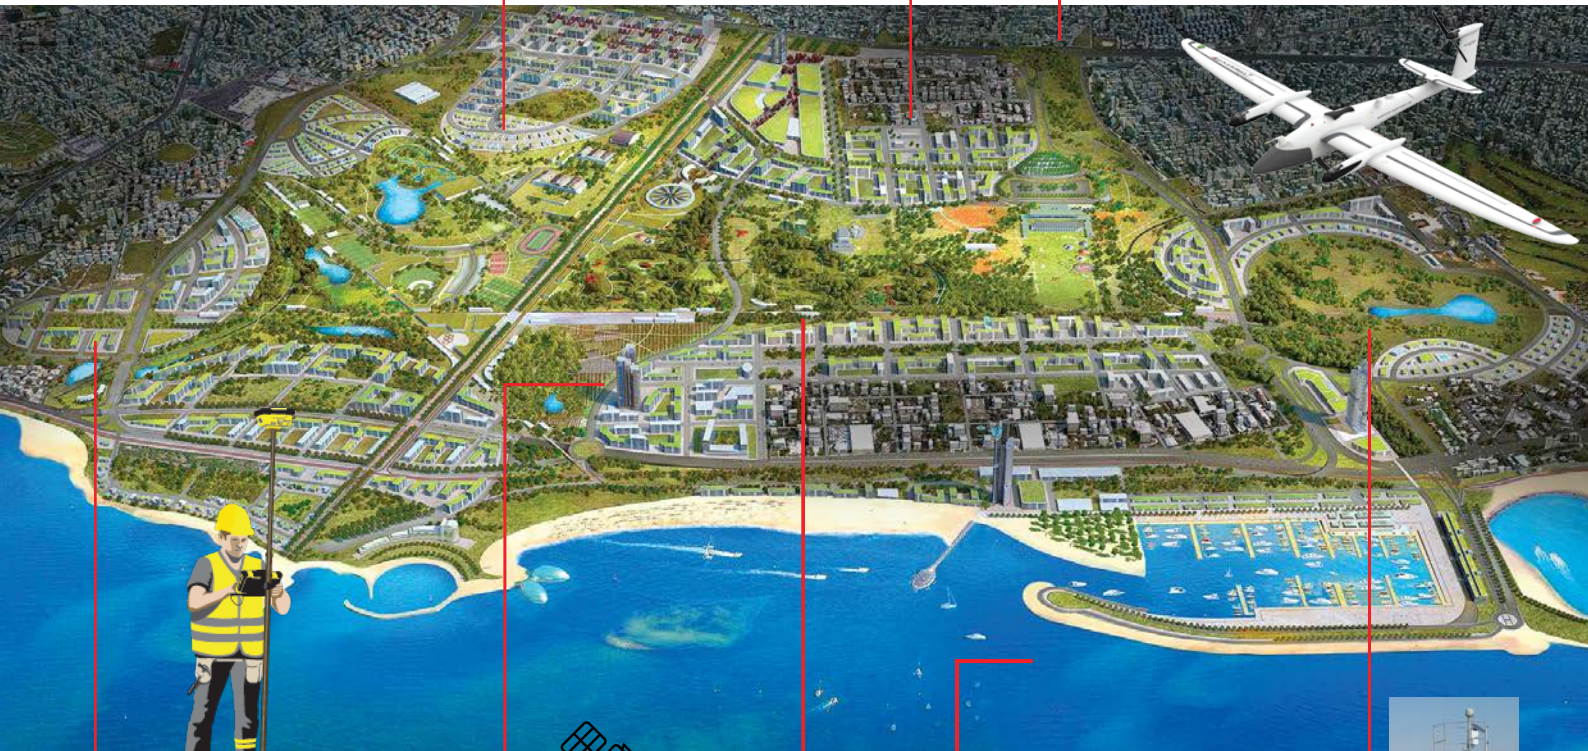

## Reality Capture

Digital City, BIM  
Mobile Mapping, Air Mapping

## Machine Control Guidance

Instrumentation, Software  
Implementation & Maintenance

## Building Construction

Instrumentation & smart software  
solutions for construction sites

## HxGN SmartNet

High-availability Network RTK  
corrections for any application

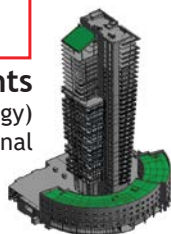

## Environmental monitoring

Ground water / Surface water  
applications

## Industrial Measurements

Marine / Heavy Industry (Metrology)  
BIM International

## Ocean Water / Coastal applications

Multi parameter water quality  
Wave / Current measurements  
Data Buoys / Underwater Noise  
Oil Spill Detection

## After Sales Support Services

Technical Support 7/7

## Certified Service Center

by Leica Geosystems AG  
Calibration Certificates / Service & Repairs
